

ARC'TERYX LEAF POCKET GUIDE 2012

NEW NAGA HOODY

Functional either as a mid layer thermal garment or as a stand alone piece, a combination of weather-shedding, abrasion-resistant sleeves and hood plus a breathable, armour-compatible body make the Naga Hoody a kit staple. Slim-fitting hood fits under helmet or head gear and sits cleanly on the back of the neck without bulk.

NEW DRAC JACKET & PANT

Versatile, high performance Burly™ Double Weave jacket and pant are snag-resistant and durable. Function as breathable, weather-resistant outer layers, or as mid layers in arctic climates. A relaxed fit works for a range of duties. 4x4 inch velcro patch on jacket sleeve identify rank and IFF; webbing reinforced knees fit kneecaps and belt loops fit Riggers Belt.

NEXT GENERATION **BRAVO JACKET**

Fortius 3.0™, a durable technical fabric with stretch, and increased articulation make the next generation Bravo Jacket suitable for a range of duties. Softshell textiles are noted for a high degree of breathability during exertion and weather resistance. Clean arm panels for customized embroidery.

NEW GRYPHON HALFSHELL™ & PANT - PRINTED

Softshell body is breathable, comfortable and regulates temperature under kit. GORE-TEX® MultiCam® sleeves and yoke provide windproof, waterproof/breathable weather protection that is highly abrasion resistant and effective across a broad range of light, elevation, seasonal and environmental conditions. Rank and IFF patches attach on shoulder.

NEW ALPHA PARKA - PRINTED

High performance GORE-TEX® MultiCam® hardshell with extra length to fit over smocks, armour and taller builds. Windproof, waterproof/breathable storm protection in MultiCam® works across a broad range of light, elevation, seasonal and environmental conditions. Stow Hood™ adjusts with one hand.

NEW ALPHA JACKET - PRINTED

The original high performance alpine jacket adapted for LEAF environments. Windproof, waterproof/breathable GORE-TEX® fabric stands up to harsh, intense climates, prolonged exposure to weather and abrasion from gear and landscapes. Bomber length has slightly dropped hem to limit lower back exposure.
